*Professor John C Stevenson is an internationally recognised Consultant Physician and Endocrinologist. Professor Stevenson's particular interest in calcium and bone metabolism and their regulation by sex steroids has extended into the effects of hormones both on the skeleton and on the cardiovascular system. In 1993, he jointly established the first Female Heart Disease Clinic in the UK at the Royal Brompton Hospital, London. Professor Stevenson was WHC Chairman from 1993 until its deregistration as an independent charity in 2025.
